

DIN LOGGER

Toepasbaar op:

- Water Management
- Afvalwater Management
- Productie Machines (Process Control)
- Energie Management (Master)
- Solar Monitoring
- Straat Verlichting Controller
- Smart Micro Grids
 - Pompstations
 - Winkelcentra
 - Intelligente Gebouwen
 - Industriële Gebouwen

Technische Specificaties:

- Beschikbaar in twee modes:
 - - Stand Alone Mode
 - Master / Slave Configuration

Variant 1

4 Input / Output Channels
Pulse contact of digitale I/O
RS 232 or RS 485

Variant 2

2 Input / Output channels
Pulse contact of digitale I/O
2 Output channels / 0-10 Volt
RS 232 or RS 485

Variant 3

2 Input / Output channels
Pulse contact of digitale I/O
2 input channels - Temperature (RP - Sensor)
RS 232 or RS 485

Variant 4

2 Input / Output channels
Pulse contact of digitale I/O
2 input channels 0-10 Volt of 4-20 mA
RS 232 or RS 485
